FYI,

I am happy to announce the installation of a new 911 Emergency telephone on the outside of Fire Station 71 in Whispering Pines. This telephone, located in a weather proof phone box, is available for anyone to use in case of an emergency. The phone is only capable of dialing 911. These are the only numbers on the push button phone that are operable.

The addition of this emergency telephone is another enhancement in the District's capabilities to provide efficient and timely emergency response to the communities served by the District. A second 911 Emergency telephone will be installed at station 73 in Geronimo Estates later this week.
